

REPORT FOR YOUNG PEOPLE AND WIDOWS NOVEMBER / DECEMBER 2021

INTRODUCTION

We thank our Abba father for this far he has brought this ministry. God has never failed and he will not fail us. He is Jehovah; he is our adoration and a caring God. He is surely a living God and he will always manifest himself through his servants. Young people and adults need God now than ever. My prayer is for them to understand why they are living and how they can serve God wholeheartedly.

The months of November and December are busiest months in our region regardless of school not closed there were many ceremonies which affected ministry in different ways. People love these ceremonies and it is their culture to do it every December holiday. But I thank God for every opportunity he gave us to reach the youth though the number was quite down.

SUNDAY SCHOOL AND JUNIOR YOUTH

Sunday school has been going on well but we need to put more effort to reach more. This year of 2022 we will begin the program at Mt Olives church to reach the Sunday school and junior youth. I do hope we will be able to accomplish that this year. Below are the pictures for Sunday school and junior youth.

YOUTH

These are the few youth that we did come across during the short holiday. We are trusting the lord to lead us and show us direction. This year we had many challenges but our God was faithful he delivered us from the hands of the devil. School calendar affect us in some way that we could not do our normal programs. Also December being the busiest month there are many ceremonies people are engaging them selves on that and some even forget to serve God. We are for God intervention to redeem them and use them as your vessels. Below are the pictures of junior and senior youth.

WIDOWS/WIDOWERS

We do praise God for this group of widows/widowers whom he us opportunity to work with the number has been increasing rapidly. Though like any other group they were affected by December activities. God has been faithful to them in all areas though we need to be encouraging them always to stay in the word of the lord. They have decided to start projects, starting chicken rearing; followed by bee keeping, sheep keeping as they grow to keep cows among others. We trust the lord on this to support them and also encourage them to depend on themselves. Below are some of the pictures during meetings.

PROJECTS

This is one of the projects that they decided to begin with; chicken rearing. The 1 dollar that they will be contributing each month is to support themselves and it is the thing they can afford.

Skills

I have also to know their skills that they can apply to get some income. This is the income generating activities. Many have something that they can do to improve themselves. I found others are making ropes, knitting, and gourds (which is valuable thing among the communities used in storing milk). They need support to get some materials. We are trusting the lord on this and for well-wishers for support.

CONCLUSION

Our prayer

We are praying for all who support us now and even in future. Our mission for future is to have a strong team from Sunday school to married couples and now widows and orphans. For the purpose of discipleship and reach those who have been disciple to disciple others. Our future is much brighter than today for we have a team of youth who are more determine to serve God. Our prayer is to reach all the young people and the couples in the entire region because the future lies on them. We have some other couples whom we have mentored to help us tomorrow to teach other families to know God and have a relationship in their families and with his word. To God be glory and honor.
