

8 July 2020

Ministry Update:

We are thanking God in advance for my Work Permit Certificate – that it will be released by Immigrations in Nairobi soon, so that I'll be able to freely move about the country. We have paid all the fees and bond issued, so just awaiting final processing and dispatch to us.

Prayer as President Uhuru Kenyatta has eased the travel restrictions in the country to see if the economy can be revived a bit. But if the virus spreads at a faster rate, the government will once again put travel restrictions in place after 21 days.

Locust invasion – it is amazing as there is almost nothing in the local media as everyone is consumed by the Covid Virus!

Churches are allowed to open, those under 13 and over 58 years are not allowed to attend. MAX of 100 people and MAX of 1 hour. With other precautions in place as well.

The Navillus Church of Christ building program is about to be completed. They are putting in the 2 foot x 2 foot concrete slabs for the floor, as I write. And additional slabs are being made to complete the project.

No official opening date set as of yet, but a small meeting is planned for the 18th to take place there. Decisions are ongoing about using the facility and surrounding area for twice a month on Saturdays Sunday School + Junior Youth activities and the other two Saturdays for the Senior youth. Pray for wisdom in this as both teams plan/work together.

Blessings to each of you,

Keith and Grace Gafner

The new church building

Inside the church building where they are laying the floor today

Kitchen cutting and sink area. Note 2 ft. x 2ft. slabs as flooring

Mr. Kibet from the Ministry of Energy helped teach about making energy saving stoves. This is the four stoves and oven in the middle

The next day the students made this stove for practice. Note the energy saving liners being used
